

Chapter Registration and Lodging Overview

cvent

Member Registration

Teachers must register their entire chapter through the Cvent **2024 EdRising NM State Conference Registration** Portal. Once you provide all of your information as the teacher of your chapter, please click the **Add a Guest** button below the Registration Type on Page 2. This will place all students, co-teachers, chaperones, and bus drivers under your chapter for invoicing purposes. Without lodging selected, the summary page will reflect registration fees applied for you and each additional group member you included.

Lodging

Teachers can either select to add lodging as they go through their own and each additional member's registration, **or** select the option to separate lodging from chapter registration. If separate lodging is requested, a link for Chapter Lodging will be provided after you complete your chapter's registration following the steps above.

Cvent Website and App

All attendees of the state conference will need to download the Cvent App to participate. Cvent Kiosks will be provided for printing badges, scanning attendees, games, student networking events, competition schedules, the conference agenda, etc.

Cvent allows registrants to make adjustments to registrations, print invoice/PO options, pay by credit card, and so much more. We understand this is a new platform for our organization and appreciate your cooperation.

Submittable

Student Competition Selection and Materials

As teachers complete their student conference registrations, there will be a question asking if the student you are registering is going to compete. In January, students who were previously marked as competitors will receive an email with the Submittable link for their upload materials and competition selections.

Materials and Competition Selections Deadline: **February 14, 2024**
